AT&T

Agenda

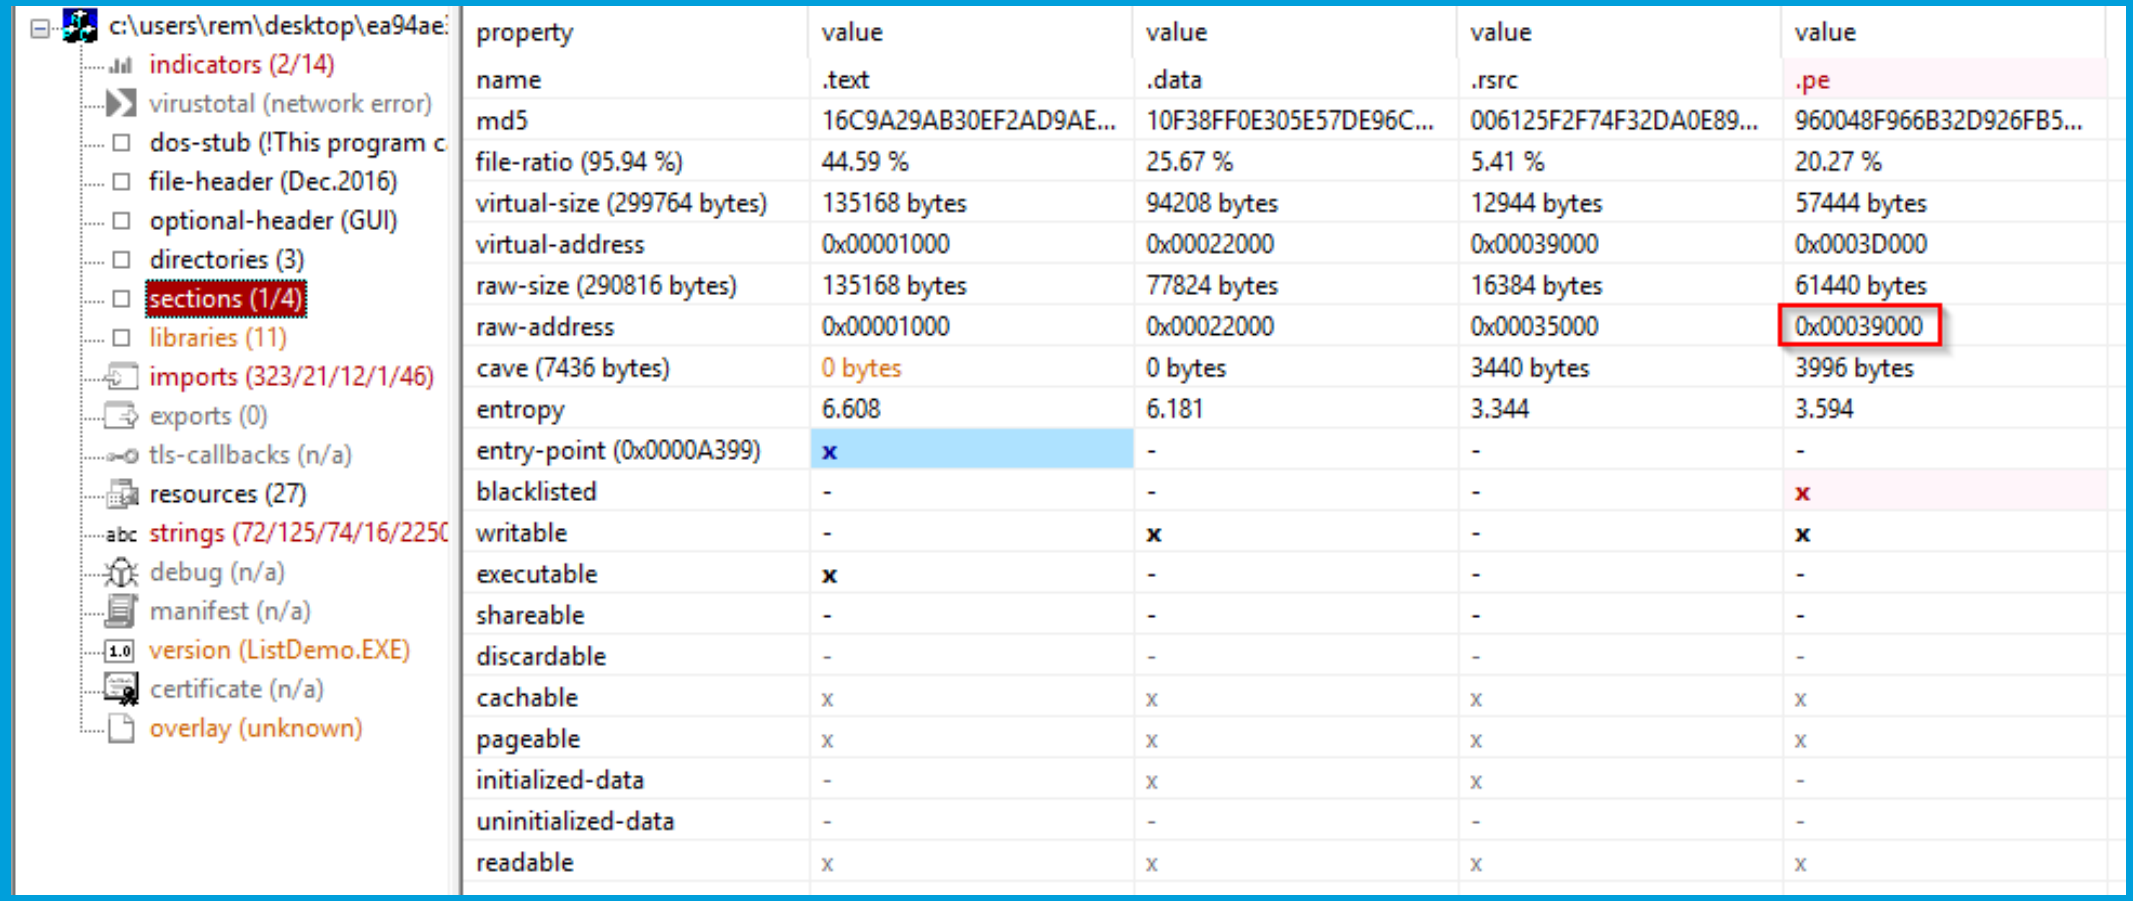
1: Intro
2: The Analysis
3: Questions

Forensicator, Malware analyst, SANS instructor, Cyclist, Private pilot

The start of the hunt

- Around Labor Day, nothing going on, needed to practice
- Was made aware of a couple of samples with new (to me) packer
- Several of us decided to look at it independently (nothing like a little competition within the team)

Preliminary exam



property	value	value	value	value

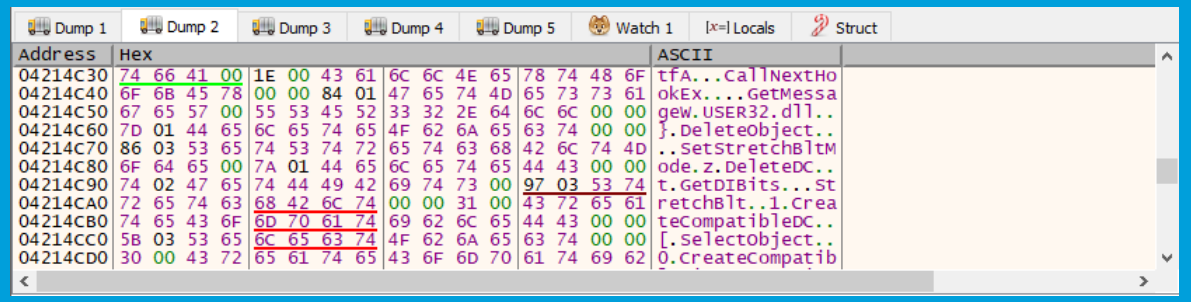
AT&T

Static Code Analysis

- ListDemo.exe – code example
  - Extraneous functions
- Garbage code in actual unpacking routines
- Obviously obfuscated to make analysis difficult
- Moving on…

Unpack with the debugger



- Single-step
- Breakpoints on LoadLibraryA and GetProcAddress
- Try to find the jump to OEP

Try to dump it

Fail!!!

Regroup
