Meet Your Panelists

Oliver Friedrichs

VP, Security Products,
Splunk

Lee Peterson

Manager of Global
Cybersecurity
Engineering, Starbucks

Jac Noel

Security Solution
Architect

How do you see deployment models for security operations technologies changing?

And what role will ***cloud*** play in the future?

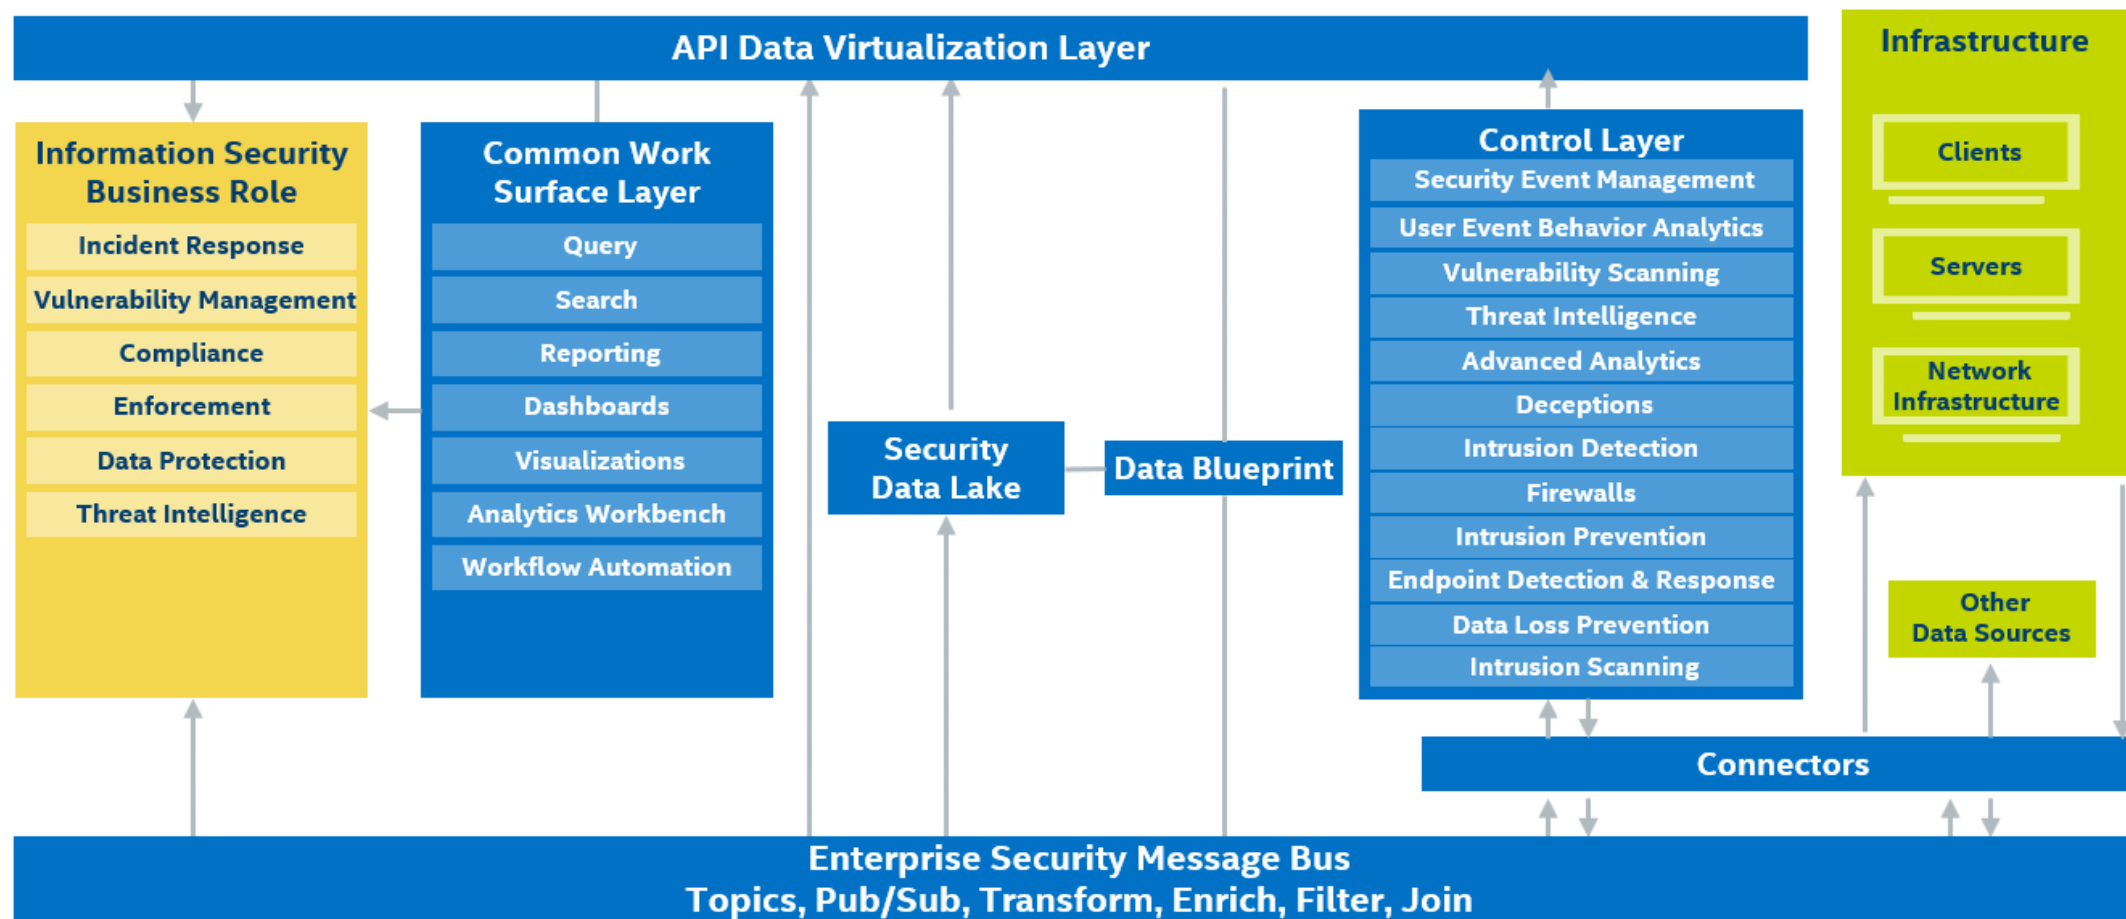

Describe the current security posture over at
Starbucks

How did Intel transform their security posture?

Reference Architecture

A platform that supports the entire organization

How has automation in the industry helped tackle
high volume tasks?

How is Starbucks utilizing SOAR?

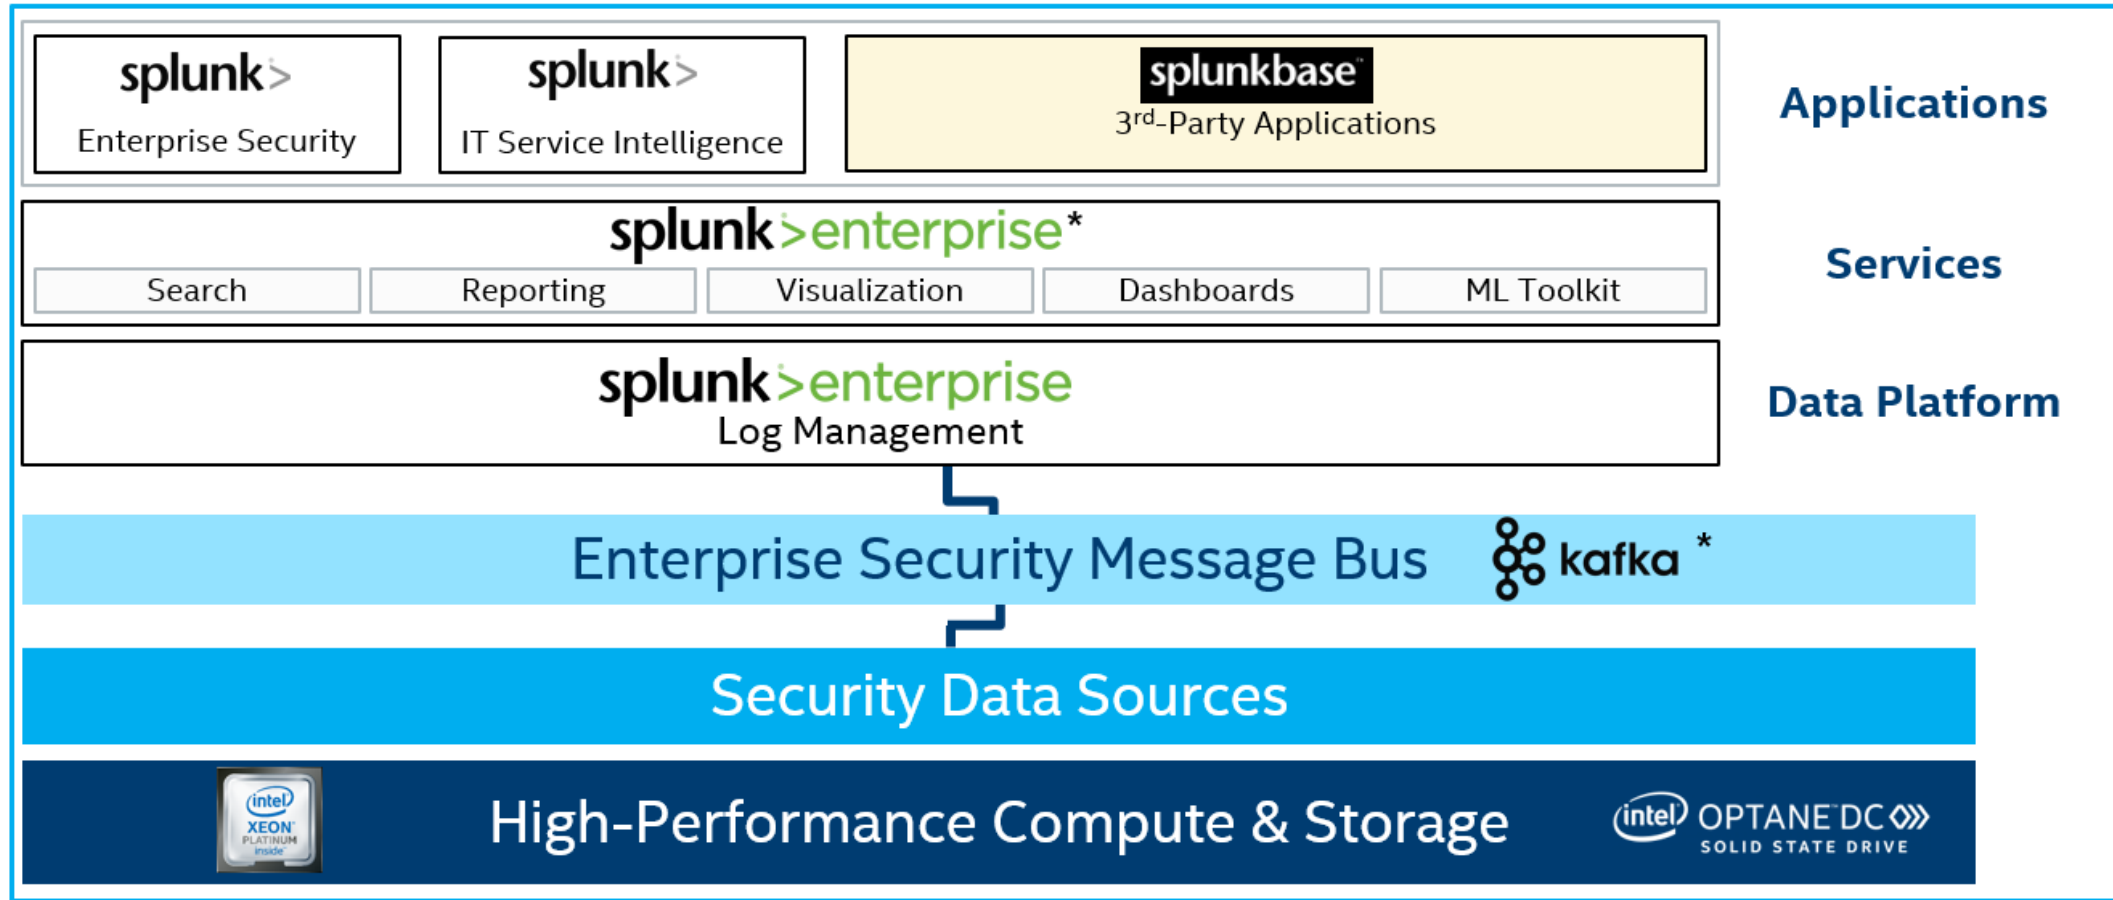

How important is reducing complexity within the
SOC?

Can you explain Intel's Cyber Intelligence Platform Infrastructure?

Cyber Intelligence Platform Architecture

Focus on identifying and responding to sophisticated adversaries

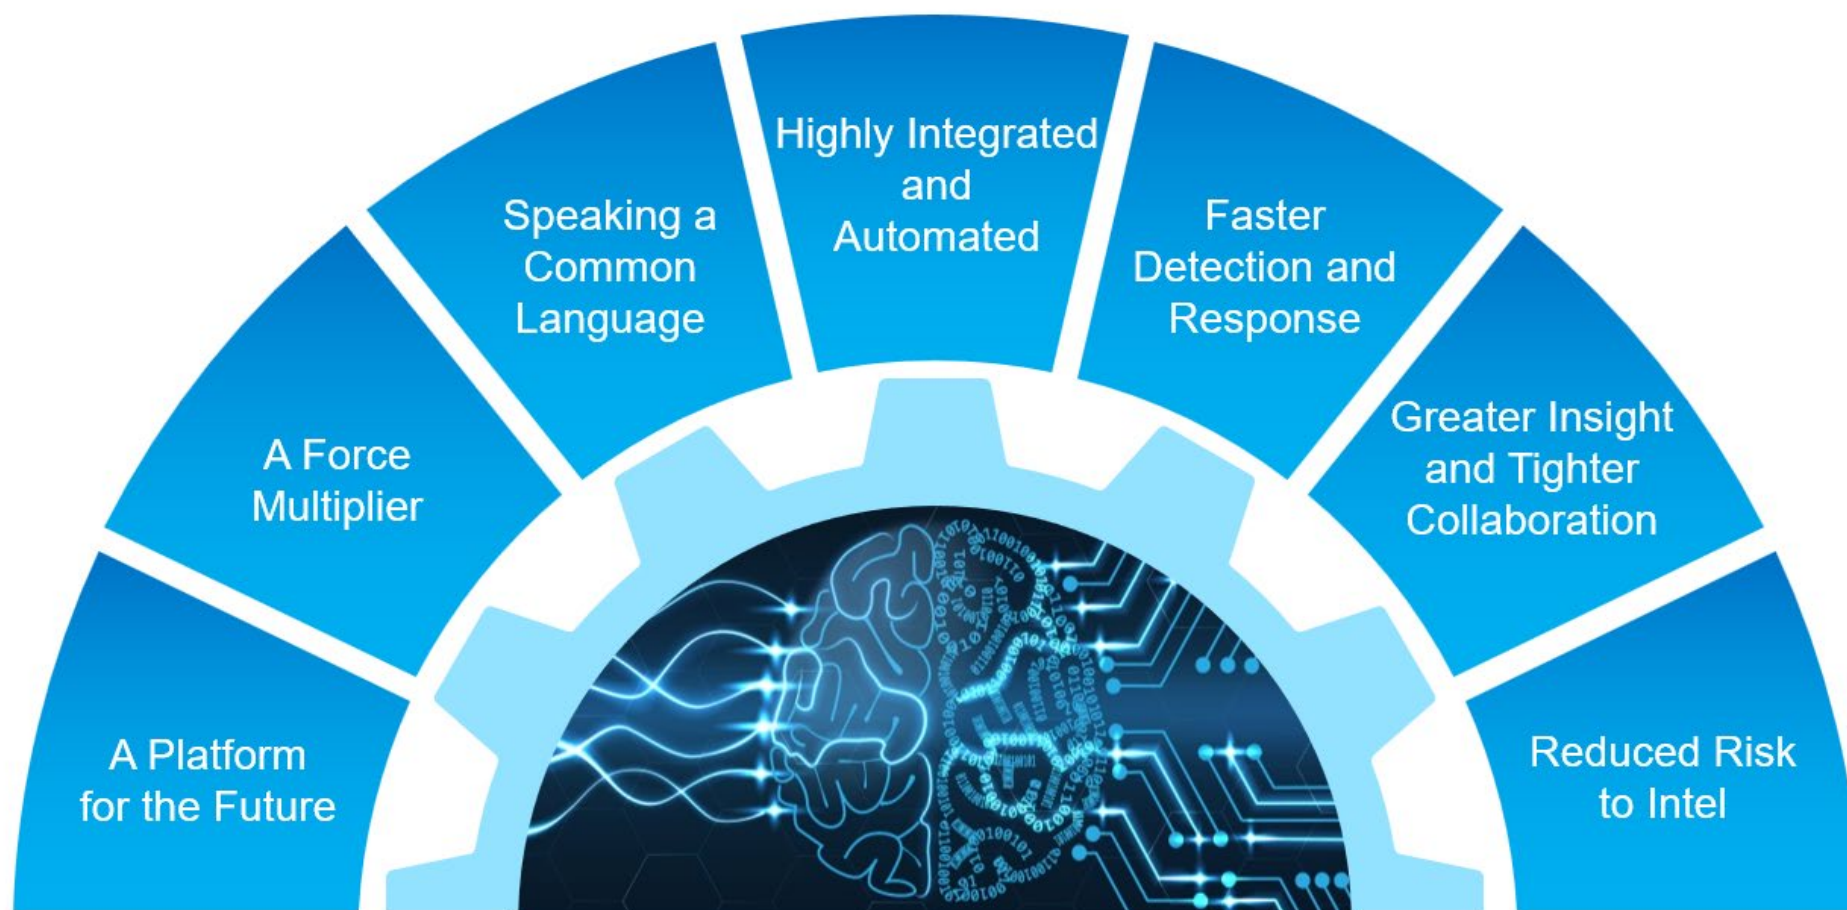

*Other names and brands may be claimed as the property of others.

How has the common work surface been
beneficial to your team at Intel?

People + Technology + Data

Transforming How Information Security Works

As the volume of data has grown over the years,
how have your organizations handled this issue?

How have you seen the skill shortage in the industry affect your security efforts?

Given the skills gap, is it challenging to staff your
SOC 24x7?

Do we need a cultural change to shrink the gap in
skill shortages?
