

# RSA®Conference2020

San Francisco | February 24 – 28 | Moscone Center

**HUMAN**  
ELEMENT

SESSION ID: **PART1-T11**

## *TeleTrust:* The European Cybersecurity Act and its impact on US companies

**MODERATOR:** **Prof. Dr. Norbert Pohlmann**

Director of the **Institute for Internet Security - if(is)** /  
Chairman of **IT Security Association Germany - TeleTrust**

**PANELISTS:**

**Dr. Steve Purser,**

Head of Core Operation Department,  
European Union Agency for  
Cybersecurity (**ENISA**)

**Matthias Intemann**

Certification of Software/COTS Prod.,  
Federal Office for Information  
Security (**BSI**)

**Sergio Lomban**

VP Trust Services, **SGS**  
Société Générale de Surveillance SA

**#RSAC**

# Positioning ENISA's Activities

# The Cybersecurity Act (CSA) tasks

# Cybersecurity Certification Framework

- **Addresses market fragmentation**
  - Products, services, processes
- **Presents a voluntary and risk-based approach**
- **Defined assurance levels (Basic, Substantial, High)**
- **Role for Member States**
  - Propose preparation of a candidate scheme
  - Involvement through European Cybersecurity Certification Group (composed of national certification supervisory authorities)
  - Involved in the procedure for adoption of an implementing act
- **Clear separation of tasks in line with Regulation (EU) 765/2008**
- **First request (transposition of SOGIS-MRA) received June 2019**

# ENISA & the EU Cybersecurity Certification Framework

- **Prepare candidate schemes or review existing ones, on the basis of**
  - Rolling Work Program (RWP)
- **Maintain a dedicated website providing information on**
  - EU cybersecurity certification schemes
  - National certification schemes replaced by EU ones
  - A store of EU statements of conformance
- **Additionally, potentially provide guidance on such areas as**
  - Conformity self assessment
  - Cybersecurity information for certified products, services and processes
- **Project on requirements for an IT system to support ENISA's task in EU Certification Framework – concluded in August 2019**
  - Report on technical specifications
  - Report on functional and non-functional requirements

# EU Member state Tasks

## NCCA

„National Cybersecurity Certification Authority“

- **Designated by Member State** to be responsible for **supervision** and **enforcement** according to CSA
- Handle **complaints** and impose **penalties**
- Support national **accreditation** body
- **Independent** of the entities it supervises
- Participate to and cooperate in **ECCG**

## NCCA CB

- Issues certificates for assurance level „high“
- Subject matter expert

# Standardization of Scheme Evaluation Methodologies

## European Standardisation Organisation

- Definition of generic Security Requirements
- Generic standard on Evaluation Methodology
- Definition of Interface to Certification

## European Legislation

- Scheme Formalities
- Competence Requirements for CAB
- Scheme Refinements of Methodology, e.g. on Crypto Assessment
- Mutual Recognition with third parties

# EU Member States

# What You Have Learned Today

- **The EU** supported by its agency "**ENISA**" is implementing a comprehensive cybersecurity framework: "**European Cyber Security Act**"
- **Protecting** future IT systems - from **critical infrastructures** to any **consumer's IoT device** in all sectors
- **Europe increases the level of IT security requirements for any vendor** who wants to offer his products and solutions on **EU markets**.

# Visit the German Pavilion at North Expo Hall, Booth 5671
