# Security Awareness Library

## GENERAL KNOWLEDGE

### End User Topics 4 to 7 min

- Access Control
- Bring Your Own Device (BYOD)
- Business Email Compromise
- ★ • Cloud Services
- Confidentiality on the Web
- Data Leakage
- Email
- Identity Theft
- Incident Reporting
- Information Classification
- Information Lifecycle
- Intellectual Property
- Introduction to Information Security
- Malware
- Mobile Devices
- ★ • Open Wi-Fi Risks
- Password
- Phishing
- ★ • Phishing Websites
- Physical Security
- Privacy
- Protecting Payment Card Data
- Protecting Your Home Computer
- Ransomware
- Responsible Use of the Internet
- Smartphones
- Social Engineering
- Social Networks
- The Clean Desk Principle
- Traveling Securely
- Unintentional Insider Threat
- Working Remotely

## RISK-BASED

### Microlearnings 2 to 3 min

- Access Control
- Applying the Clean Desk Principle
- Business Email Compromised (BEC)
- C-Level Email Impersonation
- Cyber Quiz
- Friend or Foe?
- Handling Unidentified Individuals
- Mass Market Phishing
- Phishing by Phone
- Ransomware
- Report Message
- Risky USB
- Smishing
- Spear Phishing
- Understanding App Consent Requests
- Unintentional Insider Threat
- ★ • Unsecured Sharing of Sensitive Documents
- Vishing - You Win a Prize
- Web Phishing
- Whaling

### Nanolearnings 1 to 2 min

- Anatomy of a Spear Phishing Attack
- Being Security Aware
- ★ • Cloud-Based Sharing
- Cyber Attack Detection
- Identity Theft - Example of an Attack
- Double Barrel Phishing Attack
- Insider Threats
- Phishing - Six Clues That Should Raise Your Suspicions
- Phishing Website
- Preventing Security Breaches
- Protecting Sensitive Information - Information Handling
- Ransomware
- Smishing
- Social Engineering
- Social Engineering via Email
- Social Networks
- Spear Phishing - The CEO Fraud
- Spoofing
- ★ • Stegosploit
- Vishing
- ★ • Web Conferences Risks
- Wi-Fi Security

### Nanovideos 1 to 2 min

- Credential Theft
- Cyber Fraud
- Employee Data Breach
- Financial Data Exposure
- Identity Theft
- Malicious Software
- Ransomware
- Website URL

## ROLE-BASED

### Information Security Awareness for: 30 to 40 min

- Finance
- Human Resources
- IT Administrators
- IT Developers
- Managers

### OWASP 15 to 45 min

- Open Web Application Security Project (OWASP)

### ★ RECENTLY ADDED

*Terranova Security develops one new end user module every quarter, as well as one microlearning and one nanolearning module every month.*

# Data Privacy & Compliance Library

15 to 45 min

- CCPA Essentials
- GDPR Essentials
- GDPR for Procurement Employees
- HIPAA/HITECH
- Personally Identifiable Information (PII)
- PCI DSS Awareness
- Privacy Awareness
- Protected Health Information (PHI)

NEW MODULE  5 to 10 min

## SERIOUS GAME

Working From Home:  
Strong Password

## Communication & Reinforcement Tools

**Increase employee engagement with a diverse suite of communication tools, with new assets added regularly**

### Newsletters

Send training updates and security best practice highlights directly to your users.

### Posters

Promote your training program with visuals you can tailor to match your brand.

### Wallpapers and Web Banners

Increase program engagement with vivid, thought-provoking digital messaging.

# Industry-Leading Security Awareness Training Solutions

Maximize your security awareness investment and safeguard all your organization’s important digital assets with inclusive phishing training that’s flexible and powerful. With interactive modules available in a variety of different content formats, you can provide users with an immersive training experience.

## Accessibility Compliance

Make security awareness training available to all end users with WCAG 2.0 compliant training content.

## Mobile Responsive Training

Give users the flexibility they need to complete training modules on their preferred device.

## Gamification

Boost participation and encourage training course completion with interactive gamification elements.

## Different Training Formats

Utilize a variety of content formats like microlearning and nanolearning, as well as nanovideos and serious games, to reinforce key concepts.

## A Diverse, Inclusive Training Approach

Deliver training to a global user base with security awareness content available in over 40 languages.

# Security Awareness Training Languages

Training cyber heroes is a worldwide movement, which makes language a crucial component. Empower your employees by offering security awareness training in their preferred language.
