# Core management system training

## Quality Management – ISO 9001

A Quality Management System (QMS) gives you the necessary framework to monitor and improve performance. ISO 9001 is valuable for all industries and sectors that produce products, deliver services, and strive to maintain a focus on maximizing customer satisfaction.

**Available courses:**

- Fundamentals of ISO 9001
- Requirements
- Internal Auditor
- Lead Auditor

## Environmental Management Systems – ISO 14001

ISO 14001 requires a more strategic approach to environmental management that pushes organizations to consider all factors that affect environmental performance so significant risks and opportunities can be identified and aligned with the strategic direction of the organization.

**Available courses:**

- Fundamentals of ISO 14001
- Requirements
- Internal Auditor
- Lead Auditor
- Implementing an EMS
- Senior Management Briefing
- Master Class

## Health and Safety Management Systems – ISO 45001 and ISO 45003

ISO 45001, the standard for health and safety, provides guidelines for prioritizing your employees to minimize a variety of risk factors. Adding ISO 45003 will provide practical guidance on how to manage psychological health in the workplace.

**Available courses:**

- Fundamentals of ISO 45001
- Requirements
- Internal Auditor
- Lead Auditor
- Implementation
- Lead Implementer
- Psychological Health and Safety at Work
- Senior Management Briefing
- Master Class

## Information Security Management Systems – ISO/IEC 27001 (Cybersecurity)

ISO/IEC 27001:2013 is the only auditable international standard that defines the requirements for an Information Security Management System (ISMS). It is designed to ensure that the appropriate security structures are in place to protect an organization's people, products, and proprietary information.

**Available courses:**

- Fundamentals of ISO/IEC 27001
- Requirements
- Internal Auditor
- Lead Auditor
- Implementation
- Senior Management Briefing
- CMMC Essentials
- Preparing for CMMC using ISO/IEC 27001
- NIST Cybersecurity Framework

# Training delivered the way you want

Training is rarely a one-off need and BSI can help you along every step of the journey.

From everyday training needs to ongoing skills development and support, we provide business-wide training programs. Depending on your requirements, we can deliver training in various formats.

## Online training for complete flexibility

- Training online can help you nurture talent from within your organization, from wherever you're located.
- Hosted in virtual classrooms, you can engage with instructors and each other, to help properly embed best practices within your organization, and ensure you're ready for any challenge.
- You can study from anywhere in the world and still benefit from trusted expertise, all with languages and at times to suit you.
- And without the need to travel, training online also helps all of us to be more sustainable in the way we work.
- You can join our online training courses with students from other organizations, where you'll network, connect, and learn from shared experience.
- Or an expert BSI instructor can run the same course dedicated to your organization, so you benefit directly from a consistent, flexible approach that provides personal development for your colleagues, no matter where they're located.
- The interactive experience uses the same learning techniques as classroom courses, with activities, breakouts, teamwork, and discussions, so you get the same value, skills, knowledge, and learning outcomes.

## Your copy of the standard

For standards-based training courses, you will be given a loaner copy of the standard for the duration of your course. We recommend that you are familiar with the content of the standard before the course, and it may be beneficial to bring your own copy so that you can add notes if you choose.

## Prerequisites

Some of our courses have specific prerequisites – usually having a working knowledge of the standard is a good starting point. To make sure that you and the other students on your course get the best value from your instructor, please ensure that you meet the entry criteria. Please speak to one of our advisors if you're unsure.

## BSI – your partner of choice

Working in 195 countries, we pride ourselves on the expertise, integrity, and professionalism of our people. We help clients 'make excellence a habit' and aspire to be the business partner of choice.

We deliver a diverse portfolio of standards, qualifications and training, certification, advisory, and supply chain solutions to improve business performance. BSI's solutions can help organizations improve performance, manage quality and risk, protect brands, and create a foundation for Organizational Resilience.

We look forward to working in partnership with you.
