

## DATASHEET

# The Global Leader In Security Ratings

BitSight transforms how companies manage cyber risk. In 2011, BitSight created cybersecurity ratings to help organizations measure the effectiveness of their cybersecurity program. Today, we're trusted by some of the world's largest organizations and backed by strategic partnerships, including a groundbreaking \$250 million investment from Moody's.

**2,400+**  
Customers  
worldwide

**40 Million+**  
Rated  
organizations

**42,000**  
Active  
users

**41**  
Global  
Patents

**260 Billion**  
Security Findings  
to date

**250 Million**  
in funding from  
Moody's Corporation

**4 of the Top 5**

across 30 countries use BitSight

**7 of the Top 10** Global  
Cyber Insurers use BitSight to  
make underwriting decisions

**20%** of Fortune 500  
Companies use BitSight

**4 of the big 4**  
Accounting Firms  
use BitSight

**50%** of global cyber insurance  
premiums are written by BitSight  
customers

# The Global Leader In Security Ratings

## CREATING TRUST IN THE DIGITAL ECONOMY

The global digital ecosystem introduces cybersecurity risks to every organization. Stay resilient, and manage cyber risk with BitSight Security Ratings. Over 2,400+ organizations use BitSight's trusted data to match their needs and threat landscape.

### Third-Party Risk Management

Continuously assess and monitor the cyber risk of your entire third-party ecosystem. Collaborate with third parties to quickly remediate security issues throughout the vendor lifecycle.

### Benchmarking & Executive Reporting

Communicate to the C-suite and Board on enterprise and third-party cybersecurity performance, with metrics and data that represent financial risk, breach risk, and the impact to your company's stock performance.

### Security Performance Management

Assess internal security performance over time, benchmark against peers and competitors, forecast future performance, set realistic goals, and track progress with data that provides an external viewpoint of your network.

### Financial Quantification of Enterprise Risk

Present cybersecurity risk in financial terms to represent the measurable business-risk correlated with cybersecurity decisions, to quickly assess your organization's financial exposure and areas of greatest risk.

### Procurement and Vendor Validation

Accelerate the assessment of potential vendors, negotiate contracts, and onboard vendors to meet the need of your organization with data that validates vendor cybersecurity performance and risk.

### Cyber Insurance

Enable cyber insurance carriers, reinsurers, brokers and risk managers to seamlessly identify and measure the risk in an insured's network and supply chain to effectively underwrite cyber liability.

### National Cybersecurity

Enable governments, CERTs and National Law Enforcement organizations to measure, monitor, and investigate cybersecurity risks in their nation, industry sectors, and key critical infrastructure companies.

### Investments and M&A

Quantify the cyber risk of potential acquisition targets, hold informed trading discussions with targets, and gain a clear picture of the risk you're inheriting before integrating an investment with your network.

## PARTNERSHIPS THAT PERFORM

BitSight strategic partnerships pave the way for organizations to maintain resilient cybersecurity programs. By partnering with Glass Lewis's research reports, and Moody's data and risk intelligence, BitSight works to actively combat cybersecurity threats in ways that work for its customers.

## ABOUT BITSIGHT

BitSight transforms how organizations manage cyber risk. The BitSight Security Ratings Platform applies sophisticated algorithms, producing daily security ratings that range from 250 to 900, to help organizations manage their own security performance; mitigate third-party risk; underwrite cyber insurance policies; conduct financial diligence; and assess aggregate risk. With the largest ecosystem of users and information, BitSight is the Standard in Security Ratings. For more information, please visit [www.bitsight.com](http://www.bitsight.com)
