

# PlexTrac

The Must-Have Platform for Your Security Consultancy

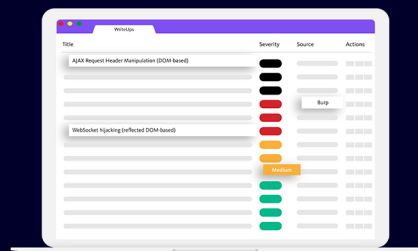

## Streamline Tedious Report Writing

PlexTrac eliminates the drudgery of reporting so cybersecurity professionals can get the real security work done.

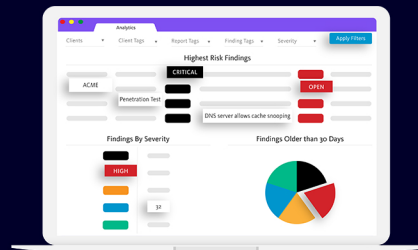

## Aggregate Findings from All Assessments

PlexTrac lets you import findings from penetration tests, vulnerability scanners, bug bounty tools, and more.

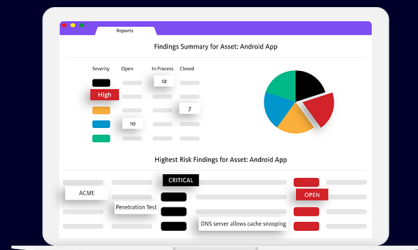

## Monitor Security Posture in Real-Time

Using PlexTrac as an authoritative tracker gives you a single-source location to instantly gain visibility on your security posture.

## Assign, Track, and Report on Remediation Processes

PlexTrac gives your red and blue teams the ability to track signal through the noise to simplify and unify the remediation process.
