Limited automated configuration assessment support is also available through 2022 with CIS-CAT Pro Assessor for: Cisco Firewall, HP-UX, IBM AIX, and Oracle Solaris.

For more information on CIS-CAT Pro technical requirements, visit: www.cisecurity.org/cybersecurity-tools/cis-cat-pro/.

CIS SecureSuite Membership provides integrated cybersecurity tools and resources to organizations of every size. Your team can automate configuration assessments, conduct remote scans, implement security best practices, and more.

Start Secure. Stay Secure.®

Membership includes:

- Full-format CIS Benchmarks (XML, Word, Excel) and CIS Controls cyber defense recommendations
- CIS-CAT Pro configuration assessment tool with Dashboard reporting component
- CIS Build Kits for rapid Benchmark implementation
- Members-only content within CIS WorkBench for creating and exporting custom configurations and more

“The CIS SecureSuite Membership is the most important membership for the compliance reviews of information security available in the market today. It reduces labor cost to develop standards by comparing control effectiveness against CIS Benchmarks.”

Access to CIS-CAT Pro with Assessor and Dashboard components:

CIS-CAT Pro Assessor scans against a target system’s configuration settings and reports the system’s compliance to the corresponding CIS Benchmark (80+ CIS Benchmarks supported).

- Select CIS Benchmarks annotated with CIS Controls mappings
- Supports automated controls assessments for CIS Controls V7.1, Implementation Group 1 for Microsoft Windows 10 and Microsoft Windows Server
- Multiple reporting formats (Microsoft Excel, HTML, etc.) with easy-to-view remediation steps for noncompliant settings
- Evidence-based reports which can be exported in various formats (CSV, HTML, JSON, TXT, XML)
- Graphical user interface (GUI) or command line (CLI) for performing assessment activities
- Remote assessment capability
- Vulnerability scanning functionality

Try it out with CIS-CAT Lite: <https://learn.cisecurity.org/cis-cat-lite>

CIS-CAT Pro Dashboard consumes assessment reports and shows system(s) compliance over time:

- CIS Controls view for annotated CIS Benchmark content
- Graphically view target system configuration assessment results by tags, by Benchmark, or overall
- Apply user-defined tags to target systems for easy grouping or exception application
- Exceptions to CIS Benchmark content and recalculate assessment scoring
- Alert notifications and difference reports for configuration drift between scans
- Difference reports show configuration drift from one assessment to the current

Special features and content via CIS WorkBench:

- Tailor benchmark recommendations to fit organizational or compliance policies
- Export CIS Benchmarks in various formats (Microsoft Word, Microsoft Excel, XCCDF, OVAL, XML)
- Remediation content (GPOs, Linux scripts, and more) for rapidly implementing CIS Benchmark recommendations

Additional Benefits:

- Enhanced technical support from staff and developers
- Right to distribute the CIS SecureSuite resources throughout your organization
- Option to list your organization’s name/logo on our website
