

MetricStream

Market Leader in Governance, Risk, and Compliance (GRC) Apps and Solutions

We Make GRC Simple

Customers, large and small, across industries and geographies, use MetricStream apps to anticipate and manage risks, improve compliance, strengthen governance, and enable data-driven decision-making. Built natively for the modern digital enterprise, MetricStream's GRC platform and GRC app approach is transforming the business landscape, and enabling Chief Risk Officers, Chief Compliance Officers, Chief Audit Executives, Chief Information Security Officers, and other GRC professionals to lead with GRC by providing the risk and regulatory intelligence needed to provide confidence and assurance, and drive better business performance.

Preserve. Protect. Perform.

- › Our purpose is to help our customers preserve their corporate integrity, protect their brands and reputations, and perform exceptionally
- › Our Vision: We Make GRC Simple. We enable GRC leaders, organizations, businesses, and governments to build risk-aware, compliant, well-governed, and high-performing enterprises and extended ecosystems

Customers

- › We support over 350 enterprise customers around the world
- › Our customers include Fortune 500 and Global 2000 brands, as well as government agencies and international organizations
- › We serve multiple industries such as Banking and Financial Services, Retail and Consumer Goods, Healthcare, Pharmaceuticals, High-Tech, Manufacturing, Automotive, Energy, and Food and Beverages

Leading with GRC

- › MetricStream is continuously cited as a market leader by top analysts at leading firms, including Chartis Research, Forrester Research, Gartner, GRC 20/20 Research, and InfoTech
- › MetricStream is the largest independent GRC firm globally, and the largest talent pool of GRC domain expertise in the world
- › Our 1,700+ employees operate from our headquarters in Silicon Valley, California, as well as our innovation and operations hub in Bangalore, India, along with sales and support centers in London, New York City, Sydney, Washington DC, and other cities around the world

Innovations

- › Highly scalable, flexible, and extensible MetricStream GRC Platform with 9 patents
- › GRC mobile apps that enable users to conduct audits and risk assessments, manage policies, review reports, monitor issues, and manage other GRC processes from tablets and smart phones
- › The private MetricStream GRC Cloud - the fastest and most simple way to get GRC apps up and running
- › Big data analytics - leveraging Hadoop MapReduce and MongoDB to derive valuable risk and compliance insights from massive data sets
- › Zaplet - MetricStream's award-winning open and flexible cloud platform and partner ecosystem to build and deploy specialized GRC apps and solutions

Customer Engagement

- › GRCIntelligence® portal - A one-stop award-winning portal for curated GRC content, regulatory feeds, and market intelligence
- › MetricStream GRC Summits and Roundtables: MetricStream-hosted summits and events that bring together business and government leaders from across the world to meet, learn, and share GRC best practices, challenges, and success stories
- › GRC Journey® methodology and grcjourney.com - A proven methodology and step-by-step blueprint for designing and embarking on a successful GRC program, based on best practices and insights from successful customer journeys
- › ComplianceOnline.com - The largest training and education network and online community of GRC professionals and experts offering GRC training courses and tools
- › MetricStream Special Interest Groups (mSIGs) - User groups led by passionate MetricStream customers, focused on sharing best practices for adopting and deriving value from MetricStream GRC apps and technologies, as well as discussing and sharing feedback on MetricStream's product roadmap
