

An aerial photograph of a city, likely New York City, showing a river, industrial areas with smokestacks, and a dense urban landscape. The image is in a dark, desaturated blue-grey color palette. A semi-transparent grey horizontal band is overlaid across the middle of the image, containing the title and subtitle text.

INFORMATION **ANARCHY**

A SURVIVAL GUIDE FOR THE MISINFORMATION AGE

TOTALLY NOT AN ANARCHIST

REBEKAH BROWN

- Player of random musical instruments

What is Information Anarchy?

The increasing volume of information available and the increasing lack of any control over or provenance for it...this condition complicates commanders' abilities to identify and use the best information. (JDP 2-00)

**How did we
get here?**

Information Monarchy

Information is created by and available to those in power.

Information Revolution

Learning increases, more people want access to information.

Information Democracy

There are multiple ways to get news, with competition comes the push for ratings.

Social Media

You can say anything you want and pass it as a fact. Seriously, anything. Try it.

Information Anarchy

So much information exist, legitimate, illegitimate, and incorrect, that it is difficult to know what is real

INNOCENT MISTAKES

- Mistakes happen, even when research is thorough.
- New information can be introduced.
- Mistakes **should** be corrected when identified.

HYPOTHESIS AS FACTS

- An idea may be valid but needs to be tested
- Rushing to get information out skips testing and validation
- Theories can be misrepresented as facts

PUSHING AN AGENDA

- **Fear, Uncertainty, and Doubt improves ratings**
- **Companies looking to increase business and brand**
- **Support political, economical, religious stances**

INTENTIONAL DISINFORMATION

- Conveying false information to an adversary
- Involves active measures – fabrication of documents, planting or leaking false information, etc.

**How can we
identify
misinformation?**

SOURCING

Where did the information come from?

Can you access the source material?

Was a structured analytic method used?

LINGUISTIC METHODS

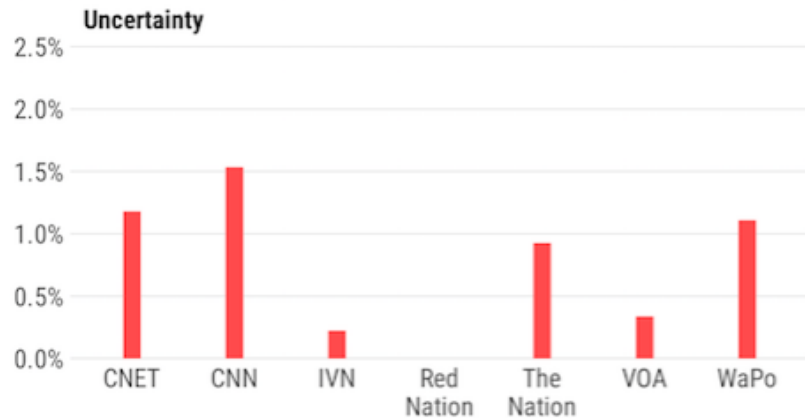

Words indicating Sourcing
(according to, as per, as the
report states)

Explanatory Phrases
(because, in fact, therefore)

Words of Uncertainty
(possibly, could, might)

Retractors
(however, although, on the
other hand)

Comparing Reporting Bias Across Corpus Elements

Comparing Reporting Bias Across Corpus Elements

Reporting Bias Matrix for Selected Corpus

(Darker colors mean larger bias when compared to other articles in the corpus)

LINGUISTIC ANALYSIS

HIGH

Words indicating Sourcing
(according to, as per, as the
report states)

Words of Uncertainty
(possibly, could, might)

Hypothesis as a Fact

LINGUISTIC ANALYSIS

HIGH

Words indicating Sourcing
(according to, as per, as the
report states)

LOW

Words of Uncertainty
(possibly, could,
might)

Explanatory Phrases
(because, in fact,
therefore)

Pushing an Agenda

LINGUISTIC ANALYSIS

LOW

Words indicating
Sourcing
(according to, as per,
as the report states)

Explanatory Phrases
(because, in fact,
therefore)

Words of Uncertainty
(possibly, could,
might)

Retractors
(however, although,
on the other hand)

Pushing an Agenda

LINGUISTIC ANALYSIS

HIGH

Words of Uncertainty
(possibly, could,
might)

Retractors
(however, although,
on the other hand)

LOW

Words indicating
Sourcing
(according to, as per,
as the report states)

Explanatory Phrases
(because, in fact,
therefore)

Disinformation

Integrative Complexity

A scoring system for measuring the complexity of human thought on a scale from 1 (very simply) to 7 (very complex). It looks at structure instead of content.

Integrative Complexity

The capacity to identify that there is more than one way to look at an issue (differentiation)

The ability to form conceptual links among these perspectives and to integrate them into a coherent overall judgment (integration)

Complexity Analysis

Be wary of words like “always”
and “never”

Look for counterpoints or
arguments to be preemptively
addressed

Look for synthesis of multiple
data sources or analytic methods

Look for complexity across the
entire text, not just in the
author’s area of expertise

Surviving in the misinformation age:

- Sourcing
- Content
- Structure

THE BAR ~~RAISE HELL~~
