AN INSIDE LOOK

FBI DIGITAL FORENSIC EXAMINER

At the Federal Bureau of Investigation (FBI), Digital Forensic Examiners apply their technical skills and experience to preserve and analyze digital evidence related to FBI investigations. As key members of the Computer Analysis and Response Team (CART), Digital Forensic Examiners work with advanced technologies, forensic concepts, software and tools to solve the Bureau’s most challenging cases.

Our Digital Forensic Examiners inventory, examine, retrieve and perform comprehensive technical analyses of digital evidence without altering original data, as well as forensically collect evidence from crime scenes for examination. Whether they’re planning, coordinating or conducting forensic science activities or expert examinations and reporting results, their work is essential to the FBI mission.

Applying Rigor and Process

As experts in their fields, Digital Forensic Examiners extend their knowledge to mobile devices, Cloud, Drone and vehicle technology, databases and IoT (Internet of Things). They’re proficient in multiple operating systems and command interfaces (Linux, Windows and and Mac). They also work as technical consultants providing up-to-date computer examination training and supplying new product

reviews to Special Agents and other federal, state and local law enforcement agencies.

All Digital Forensic Examiners may be required to testify in court about procedures and methods used to obtain data. They prepare authoritative oral and written reports on opinions and findings for stakeholders within the law enforcement community.

Computer Analysis and Response Team

Due to the overwhelming nature of digital evidence and its prevalence in today’s crimes, the FBI CART is the Bureau’s go-to force for providing digital forensic services for both agency investigations and local, state and federal partner investigations. CART uses digital forensic evidence to help solve crimes ranging from cybercrimes and computer intrusions to violent crimes, financial crimes, organized crime and national security matters.

ALL ABOUT THE EVIDENCE

Digital Forensic Examiners are experts at extracting data from digital media, even when the media is damaged by the forces of nature or by perpetrators attempting to prevent data from being recovered.

Their valuable knowledge and expertise involves the collection, preservation and analysis of vital and often trace evidence found on:

- » Cellphones
- » Desktop Computers
- » Laptop Computers
- » Digital Cameras
- » DVDs/CDs
- » Flash Media
- » Security Camera Footage
