sysdig

Sysdig Secure

Sysdig Secure provides security to confidently run containers, Kubernetes and cloud.

How It Works

> **"** *We've instrumented Sysdig into our pipelines where it is executing container vulnerability and compliance checks. Those automated checks allow us to move faster."*
>
> **- Director Engineering, SAP Concur**

Why Sysdig

Deep visibility across containers and cloud

Radically simple to run and scale

Built on an open-source security stack

Multi-Cloud Support

Google Cloud · aws · IBM Cloud · Azure

SaaS First Platform

AICPA SOC · kubernetes CERTIFIED

Three availability zones in the U.S. and Europe

DevOps Integrated

Key Use Cases

Container/K8s Security

- Vulnerability Management
- Runtime Security
- Incident Response and Forensics
- Compliance
- Network Security

Cloud Security

- Infrastructure as Code Security
- Cloud Security (CSPM)
- Cloud Workload Protection
- Cloud Infrastructure Entitlements Management (CIEM)

Highlighted Customers

logdna · BlaBlaCar · SAP Concur · worldpay from FIS · Goldman Sachs
