RSA®Conference2020

AI and Legal Threats
Topic 1 for discussion: How does AI threaten security?

RSAConference2020

Topic 2 for discussion: How can AI help security management?

RSAConference2020

Topic 3 for discussion: How does AI threaten privacy?

RSA Conference2020

Topic 4 for discussion: What are some data protection legal risks from AI?

RSA Conference2020

Mitigating Legal and Operational AI Risks

- How?

- Who (within the enterprise)?

- Who (industry groups, e.g., AI Security Alliance)?

AI SECURITY ALLIANCE

RSA Conference2020

Mitigating Legal and Operational AI Risks

Working Group: Operationalizing AI in Cyber Security

Develop a best practices document on how to:

- Deploy AI solutions effectively in security operations
- Increase efficiency and automation of AI solutions in cyber security operations.

Chair: *Randy Conner*, VP IT Security, International Hotels Group (IHG).

Working Group: Security Challenges with AI Enabled Edge Computing

Address in a best practices guide :

- Security vulnerabilities of neural networks
- Cyber risk mitigation on Edge computing devices
- Secure bootstrapping Edge computing devices: verify integrity of firmware

Chair: *Mitthan Meena,* Sr. Engineering Manager, Symantec

Join a working group to….

Audit
Join to observe and learn
Audit with minimal time commitment

Influence
Contribute to deliverables
Drive change and shape the future

Leverage

Use deliverables - guidelines, best practices
Make smart decisions

Takeaways

Apply What You Have Learned Today

- Next week you should:
  - Start educating yourselves

- In the first three months following this presentation you should:
  - Recognize AI issues and assess their impact
  - Start interdisciplinary teams exploring AI security issues

- Within six months you should:
  - Implement new risk management methodologies
  - Contribute to standards and best practices
  - Network with industry colleagues and trade groups
