INFOSEC™

Outsmart cybercrime

Cyber education for every role

People + skills + technology = security

At Infosec we believe arming people with the right knowledge is the best defense against cyber threats. From security awareness for your accounting team to secure coding training for your developers, we have the right security education to protect your employees and organization.

INFOSEC IQ

Change security behaviors. Reduce business risk.

Employees are not a cybersecurity problem. They're part of the solution. Empower them with the knowledge and skills to stay cyber secure at work and at home. With over 2,000 awareness and training resources, you'll have everything you need to prepare employees to detect, report and defeat cybercrime.

| 9+ annual training plans | 400+ training modules | **CHOOSE YOUR OWN ADVENTURE®** 10 security awareness games | 200+ newsletters, posters & infographics | 1,000+ phishing templates | 34 supported languages |

Personalize employee training with role-based modules and gamified lessons in a variety of themes and styles to engage learners and strengthen your cybersecurity culture.

Improve your training efforts with actionable data to make secure behaviors second nature for every employee.

Personalize · **Automate** · **Integrate** · **Analyze** · **Improve**

Automate learner management, training campaigns and phishing simulations to keep lessons relevant — and save you time.

Integrate with your LMS, identify provider, endpoint protection and SOC to streamline program management, reporting and attack response.

Analyze employee risk scores, learning outcomes and your cybersecurity culture to identify weaknesses and anticipate cyber threats.

INFOSEC Skills

Skill up & get certified — hands-on

Put theory into practice with over 1,400 role-based courses, hands-on cyber ranges and labs. Learners progress from beginner to expert with training mapped to in-demand cyber roles like SOC Analyst and Cloud Security Engineer, as well as industry standards like the NICE Workforce Framework for Cybersecurity and MITRE ATT&CK® Matrix for Enterprise. Interactive cyber ranges go one step further to move learners from theory to practice through guided, realistic labs with clear learning objectives and actionable lessons.

Infosec Skills helps cyber leaders like you:

| Prepare teams for ATT&CK tactics and techniques with hands-on labs and cyber ranges | Guide team development with 190+ learning paths mapped to the NICE Framework | Assess knowledge and skills to pinpoint gaps and training needs | Gauge exam readiness with customizable certification practice exams | Fast-track certification with 100+ live, instructor-led boot camps |

Upgrade to a live boot camp for guaranteed certification

Certification is often more than a goal — it's a business requirement. That's why we offer over 100 certification boot camps taught by industry experts with 10+ years of experience. Here's how we guarantee your certification success:

» **Exam Pass Guarantee:*** Students who don't pass their exam on the first attempt get a second attempt free.

» **100% Satisfaction Guarantee:** Students who are not 100% satisfied with their boot camp at the end of day one may enroll in a different course free.

» **Knowledge Transfer Guarantee:** If your employee leaves within three months of certification, we will train another tuition-free for up to one year.
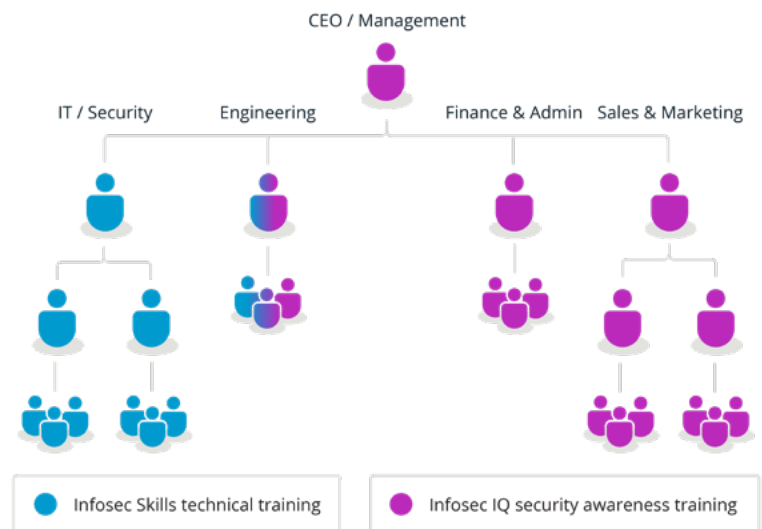

Does not apply to CMMC-AB boot camps.

Engaging security education — customized to each role.

Infosec helps you deliver the right security education to the right people at the right time. This allows you to go beyond basic education and compliance requirements, give every employee the skills they need to stay secure and inspire a culture of security at your organization.

Security culture is your organization's collective awareness, behaviors and perceptions about cybersecurity — and your team. It's one of the greatest reflections of your security practices and a top predictor of employee behaviors. Infosec gives you the tools to measure your cybersecurity culture and the resources to turn it into one of your greatest cyber strengths.
